Description

For health care providers, social workers, case managers, mental health specialists, nutritionists, and prevention specialists with an interest in psychiatry Get expert psychiatric specialist knowledge in a virtual learning network with OSU Center for Health Sciences providers. Curriculum is designed to help providers improve their expertise in treating psychiatric disorders in the primary care setting. Providers are encouraged to present cases to the team of experts.

Learning Objectives

- 1 Understand mood disorders, including major depression, dysthymic disorder, and bipolar disorder are the third most common cause of hospitalization in the U.S. for both you and adults aged 18-44.
- 2 Evaluate why more than 90% of children who die by suicide have a mental health condition.
- 3 Evaluate why suicide is the 10th leading cause of death in the U.S.
