Description

Grand Rounds is a weekly seminar series to support the academic environment of the OSU CHS and OMECO Residency Programs. Topics and speakers are selected to provide faculty and trainees with up-to-date knowledge about timely issues in internal medicine. Grand Rounds occurs the first three Tuesday of each month at 7am.

Learning Objectives

- 1 Present evidence-based information for providing patient-centered care in healthcare settings.
- 1 Present evidence-based information for providing patient-centered care in healthcare settings.
- 2 Provide evidence-based guides for diagnosing and managing common diseases in patients from all genders, across the life span.
- 2 Provide evidence-based guides for diagnosing and managing common diseases in patients from all genders, across the life span.
- 3 Identify, evaluate, and implement evidence-based preventative, diagnostic, and treatment/management strategies in healthcare settings.
- 3 Identify, evaluate, and implement evidence-based preventative, diagnostic, and treatment/management strategies in healthcare settings.
- 4 Improve the overall care of patients across the life span with special needs and those who suffer from pain or chronic or terminal conditions.
- 4 Improve the overall care of patients across the life span with special needs and those who suffer from pain or chronic or terminal conditions.
