Description

For health care providers, social workers, case managers, mental health specialists, nutritionists, and prevention specialists with an interest in psychiatry Get expert psychiatric specialist knowledge in a virtual learning network with OSU Center for Health Sciences providers. Curriculum is designed to help providers improve their expertise in treating psychiatric disorders in the primary care setting. Providers are encouraged to present cases to the team of experts.

Learning Objectives

- 1 Identify key diagnostic criteria for common mental health conditions, including mood disorders, anxiety disorders, and psychotic disorders.
- 2 Use evidence-based guidelines to assess and diagnose mental health conditions.
- 3 List the different types of mood disorders, including major depressive disorder, and bipolar disorder.
