All Specialties

Description

For Community Providers, Supervisors and Administrators Get expert knowledge in a virtual learning network with Infant Mental Health Experts. The curriculum is designed to expand expertise in areas of infant mental health in the areas of clinical, supervision and administrative.

Learning Objectives

- 1 Identify key principles and practices of infant mental health in prevention, assessment, and treatment.
- 2 Demonstrate evidence-based strategies in clinical scenarios to prevent, assess, and treat mental health concerns in infants and young children.
- 3 Recall common clinical issues in infant mental health, such as attachment disorders or trauma.
